TESTIMONIAL FROM THE MOST DIS-

TESTIMONIAL FROM THE MOST DISTINGUISHED ARTISTS.
TO STEINWAY & SONS.
The Piano-forjes, Grand, Square, and Upright, manufactured by Mesers. Steisway & Sons, have established for us to add anything to their just fame. Having thoroughly tested and tried these instruments personally for years, both in public and private, if becomes our pleasant duty to express our candid opinion regarding their unaquestioned superiority ever any other plane known to us.

Among the chief points of their uniform excellence are: Greatest peasible depth, richness and volume of tone, combined with a rare brilliancy, clearness, such perfect eveness throughout the entire acain, and above ail, a surprising duration of sound, the pure and sympathethe quality of which never changes under the most delicate or powerful touch. This peculiarity is found exclusively in the Steinway Plano, and, together with the matchless precision, disaticity, and promptness of action, always characterizing these instruments, as well as their unequaled durability under the severest trails, is truly surprising, and claims at once the admiration of every artist. Ve, therefore, consider the "Steinway" planes in all respects by lar the best instruments made in this country, or Europe, use them solely and exclusively curselves, in public or private, and recommend them invariably to our friends and the public.

We have at different times expressed our opinion regarding the planes of various makers, but freely and unhesitatingly pronounce.
